Summary of qualifications

I've been studying Web development since early 2020 through books, Harb and YouTube, implementing my own projects as part of my practice. Learned the basics of HTML and CSS, mastered JavaScript and several frameworks.

Completed courses at GeekBrains University and Vue School. Been working as a Frontend developer since 2021.

My English is B1, I can read documentation easily.

My current technology stack:

- HTML
- CSS / Sass
- JavaScript / TypeScript
- Vue / Nuxt
- Webpack / Vite
- npm / yarn
- Git
- Unit Testing
- Node.js

Several facts about me

- By education I am an economist and manager. I decided to change the field of activity, because since childhood I am fond of programming and exact sciences.
- I prefer a healthy lifestyle: traveling, biking, running, etc.
- In my spare time I read books, am engaged in self-development and study English with a tutor.
- I don't have bad habits.
- I easily manage to find the best way out of a difficult situation in a short period of time.
- I have experience in public speaking.
- I also like cats very much.
